Dr. Mathieu Petitjean is an experienced operational leader with 15 years of executive-level and international business experience in Healthcare Diagnostics and Medical Technology including Strategic Marketing, New Product Introduction, Commercial Operations and Sales Force Effectiveness.

Since 2007, Mathieu is President of MedNest, Princeton, USA. MedNest sources and develops the business of innovative international and domestic Medical Technology Companies for the US markets, and operates exclusively in the convergence space of Drug, Devices and Diagnostics and Healthcare IT.

Prior to this role, he was Chief Marketing Officer for GE Water (2005), VP of Business Operations at GE Healthcare (2003-1999), and held several business and product and Technology leadership roles with GE Clinical Services and GE Medical systems in 6 different European, American and Latin-American markets from 1993 to 1999. He started his career in Europe and Japan with several high technology start-up companies.

Mathieu is a graduate from the General Electric Jack Welch Institute. He holds a Ph.D. in Solid States Physics from Ecole Polytechnique, France and an Engineering Degree from ESPCI Paris. He has extensively published and created intellectual property in the areas of Molecular Beam Epitaxy and Bandgap Engineering.

He is a Foreign Trade Advisor to the Embassy of France in the US, and a Member of the New Jersey Bio-1 initiative, specialized in Medical Technologies.

Matt lives in the Princeton area since 2004 with is his wife Helene (MD, Clinical Research Director, pharma mega-trials). Helene and Matt have two children: Louis (10 years old) and Marie (9 years old).
